

Digital HERO

The Digital Hero Camera makes it easy to capture exciting photos and **videos** during any sport or activity. Hiking, biking, paddling or surfing...get the shot that makes you look like a Hero.

A shock-proof / waterproof polycarbonate casing protects the camera against drops and bumps that would destroy other digital cameras. It is functional to 30 feet underwater and waterproof to 100'+ deep.

Whether over ski gloves and a jacket, on a child's wrist, or strapped to your favorite gear...one size fits all.

*Actual Digital Hero photos

Actual Hero Photo

Shoot digital photos and **video** on the fly.
(Or on the paddle, oar, handlebars...)

USA patented, internationally pending.

Digital HERO

sports wrist camera

Flyweight at 4.5 ounces, the Digital Hero is so light you will forget you have it on. Thanks to the high quality neoprene strap, it's never been so easy or comfortable to be a Hero.

32MB of onboard memory (fixed) stores over 250 photos or 32 ten second video clips.

Included AAA battery will last for 200+ photos. 1 Lithium AAA lasts 1000+ photos.

Locks flat during activity.

Pivots up to get the shot.
